EXPERIENCE

Software Developer
Karnataka State Pollution Control Board

08/2023 - Present   *Mangalore, Karnataka*
Technologies : Bootstrap, React JS, Node JS, Electron JS, PostgreSQL, Express Framework and RESTful services.

My Role
- As a software engineer, my job is to design software that the KSPCB can use to handle all industrial-related details.

Web Developer
Varcons Technologies Pvt Ltd

11/2022 - 12/2022   *Bangalore, Karnataka*
Technologies : HTML, CSS, JavaScript, Bootstrap.

My Role
- I oversaw a vibrant team of five people while I was an intern at Varcons Technologies Pvt Ltd, where we developed "Leisure Square," a comprehensive café website template. My responsibilities included managing team projects, supervising the development of dynamic websites, and guaranteeing that design briefs and customer requirements were perfectly aligned to produce an engaging online display.

SKILLS

Languages : C++, Java, JavaScript, HTML, CSS, SQL.

Database : MYSQL, PostgreSQL.

Framework : React Js, Express Js.

Libraries : Bootstrap, Tailwind Css

PROJECTS

Project Manager :
- **Technologies :** React JS, Bootstrap, Node JS, PostgreSQL, Express, S3.
- This project facilitates efficient project management within a college ecosystem, enabling college administrators, HODs, professors, and students to collaborate seamlessly. It streamlines mentor selection, project approval, and project finalization processes, while also providing hierarchical visibility of ongoing projects tailored to each role.
